

HH Awarded Rig Contracts from High– end Customer Again

Dongfang Honghua recently secured a significant contract with a prestigious Kuwaiti client, reaffirming their commitment to delivering multiple advanced deep drilling rigs. This ongoing collaboration underscores the unwavering trust and recognition that Dongfang Honghua's product design, quality, performance, and service have garnered from both markets and customers. Such milestones not only solidify Dongfang Honghua's prominent position within the Kuwaiti oil drilling rig equipment market but also underscore its enduring leadership.

The drilling rigs being provided this time are once again outfitted with domestically produced components, including the electronic control system and quintuplex mud pump, independently developed by Dongfang Honghua. Additionally, they feature Dongfang Honghua's driller integrated control system, "Unison," enabling centralized control of both the drilling rig and automated equipment. This integration effectively guarantees the safe and efficient operation of the drilling rig. This customer acknowledgment represents a significant validation of Chinese brands and manufacturing, further elevating Dongfang Honghua's brand reputation and recognition within the oil and gas equipment sector.

Adversity reveals true character, and perseverance leads to success; Dongfang Honghua will continue to actively participate in the construction of the "Belt and Road" initiative with high quality, focusing on the leading targets of "13531". We will steadfastly implement our strategies, work diligently, and continue to deepen our presence in the international market. We will consistently enhance our technological capabilities and leverage the advantages of our global marketing and service networks. Our aim is to provide customers with greener and more efficient comprehensive solutions for energy development. We are committed to contributing the "Dongfang" strength to further drive the development of the global oil and gas industry.

Extended Reading
